

Fixed 2x2 ownership factorial and phase boundary

	Full-copy KV	Shared-document KV
Materialized GDN	KV setup private document copy GDN setup private setup base first transition ▼ 60 private mutable tensors/request	KV setup read-only shared document GDN setup private setup base first transition ▼ 60 private mutable tensors/request
Borrowed GDN	KV setup private document copy GDN setup read-only base alias first transition ▼ 60 private mutable tensors/request	KV setup read-only shared document GDN setup read-only base alias first transition ▼ 60 private mutable tensors/request

All four cells: canonical byte-digest-equivalent outputs/state; base and peer ranges disjoint after transition
